**MAN & WOMAN
OF THE YEAR**

Dear Friends,

I am honored to be nominated as a candidate for the 2015 *Man & Woman of the Year* fundraising campaign benefiting the Leukemia & Lymphoma Society. The mission of the Leukemia & Lymphoma Society (LLS) is to cure leukemia, lymphoma, Hodgkin's disease, and myeloma, and improve the quality of life for patients and their families in the areas of research and patient services.

As a member of the Avamere Family of Companies, a healthcare organization based in Wilsonville, Oregon, I witness every day the impact an unexpected diagnosis has on our patients and families. As a mother of two amazing girls, I am touched by the stories of courage from the young boys and girls affected by blood cancers. I am grateful for the opportunity to raise awareness and financial support.

Your donation will sustain ongoing research to find a cure for blood cancers and provided the much needed support to local families as they fight the fight of a lifetime. New therapies cannot become realities without the funding support of organizations like LLS. Despite great advances in the treatment of blood cancers, diseases such as leukemia and lymphoma remain largely incurable. But that can change with us!

My campaign to be the Woman of the Year is all about dollars raised. Every dollar I raise is a vote for me and a vote to cure cancer. I am asking you today to join me in this ambitious campaign. I have until **May 7, 2015** to reach my goal of raising **\$100,000**. Enclosed is a donation form and an envelope to make it easy for you to send a tax-deductible contribution (payable to: The Leukemia & Lymphoma Society) to me. Or, if you prefer, you can go to the campaign website and make your contribution there: www.mwoy.org/pages/oswim/oswim15/lkienwi

Thank you for your generous support of the Leukemia and Lymphoma Society, a non-profit organization committed to giving life to those who have, are, and will fight the tough challenges of cancer. Every dollar donated brings us one step closer to a world without blood cancers.

I'll let you know how the campaign goes. For now, I am grateful for your friendship and support.

Sincerely,

Lisa Sienkiewicz

helps LLS to advocate for policies that improve blood cancer patients' access to care.

helps fund general lab supplies for one week to help LLS-funded researchers conduct laboratory work needed to make life-saving blood cancer treatments possible.

funds one week of important one-on-one and group support for families dealing with the challenges of blood cancer treatment.

allows LLS researchers to isolate T cells from a patient's blood to be used in a promising experimental immunotherapy clinical trial.
