

Sagemcom unveils XMediusCLOUD fax app; first cloud fax app for Xerox® multifunction printers built on ConnectKey® Technology

An app offering a turnkey, easy onboarding and scalable fax solution

MONTREAL, Canada (March 17, 2015) - Sagemcom, the global leader in FoIP solutions with XMediusFAX®, today announced the launch of XMediusCLOUD fax app specifically developed for Xerox® multifunction printers (MFPs) built on ConnectKey® Technology. Truly plug-and-play, this cloud-based virtual fax kit is ideal for Small and Medium Businesses (SMBs) seeking a hassle-free fax solution. Prepaid fax credit bundles provide customers the freedom to pay only for what they use, according to their needs.

XMediusCLOUD fax app fulfills a key business need for SMB clients. Easy to install, the XMediusCLOUD fax app allows partners to generate continuous revenue streams.

“We are offering a unique business opportunity to stand out in the crowd by being the first FoIP solution provider to bundle a prepaid, virtual fax kit app with Xerox® ConnectKey® enabled MFPs”, stated Jean Champagne, General Manager of the Enterprise Solutions Department.

XMediusCLOUD fax app is extremely easy to deploy and eliminates costly analog phone lines, upgrades and maintenance costs. A simple set-up wizard enables customers to send and receive faxes, anywhere and anytime, directly from a ConnectKey® enabled MFP, or as an option through an email application (Microsoft Outlook, Exchange, etc.) with any internet connection. It leverages Sagemcom’s enterprise-grade cloud platform with guaranteed performance, in a secure, reliable, efficient and cost-effective manner.
