

NEW

Premium LCD Panel

The Premium Multifunction LCD panel offers improved readability in low light conditions and user defined settings to customize operation.

USB charge ports

Two (2) - 2.1 Amp (shared) front panel USB charge ports conveniently charge and power smartphones, tablets and other mobile devices.

Intelligent LCD UPS systems - BRG models

Next generation power protection for computers, network devices and more.

CyberPower improves the industry's most popular UPS line for computer and peripheral protection by offering four new models with advanced features to protect your electronic equipment and files. The BRG850AVRLCD, BRG1000AVRLCD, BRG1350AVRLCD, and BRG1500AVRLCD models are designed to protect desktop computers, monitors, network devices, VoIP equipment, entry- to mid-level home theater equipment and kiosk applications from power surges, spikes, sags, blackouts, and brownouts.

Each model features line interactive power protection with Automatic Voltage Regulation (AVR) that delivers simulated sine wave output to protect connected devices and equipment from failure during a power interruption. New features include a Premium Multifunction LCD panel with improved readability and Two (2) - 2.1 Amp USB charging ports that provide charging power for portable devices.

All models are ENERGY STAR® qualified and feature GreenPower UPS™ Bypass

circuitry to reduce energy consumption and heat buildup. CyberPower stands behind our design and craftsmanship by providing a 3-year product warranty (includes batteries).

Typical Applications

- Computers and workstations
- Wireless VoIP routers and modems
- Home theater equipment
- Kiosk applications

Features

- Capacity: 850-1500VA / 510-900W
- Line interactive topology
- Simulated sine wave output
- Automatic Voltage Regulation (AVR)
- Premium Multifunction LCD panel
- 2 - 2.1 A (shared) USB charge ports
- 10-12 AC surge protected outlets
- RJ11, RJ45, RG6 protection
- EMI/RFI Filters
- GreenPower UPS™ Bypass technology
- PowerPanel® Personal Edition
- ENERGY STAR® qualified
- 3-Year warranty (includes batteries)
- Connected equipment guarantee

- A** RJ11/45 Protection
- B** RG6 Coax Protection
- C** Communication Ports
- D** Wiring Fault Indicator
- E** Battery & Surge Protected Outlets
- F** Surge Protected Outlets
- G** Input Breaker
- H** Power Button
- I** Premium Multifunction LCD Panel
