

PATIENT FLOW SUMMIT™

LAS VEGAS 2015

Register Now for Healthcare's Premiere Patient Flow Event

May 4 - 7, 2015

JW Marriott Resort & Spa
Las Vegas, NV

About the Patient Follow Summit

Each year the Patient Flow Summit brings together hospital leaders and patient flow experts to share experiences, teach methodologies, build relationships, and inspire positive change. The event provides both insightful presentations and valuable networking opportunities.

Summit presenters focus on driving operational efficiencies, improving the quality of patient care, and increasing hospital fiscal performance.

Presentations cover a broad range of patient flow related topics such as: capacity management, patient placement, transfer centers, readmission reduction, ED throughput, hospital operations, population health, and healthcare reform.

Attendees have come from a wide range of hospitals including Cleveland Clinic, HCA, Mayo Clinic, Cedars-Sinai, Memorial Hermann, UCLA Health, Dartmouth-Hitchcock, Children's Hospital Boston, New York Presbyterian, and Kaiser Permanente.

For a complete list of 2015 presenters and venue information, as well as content from previous events, please visit:

Networking Opportunities

Whether it's at the opening reception on the beautiful grounds of the JW Marriott resort or on top of the Stratosphere Tower during the Wednesday night excursion to the world-famous Las Vegas Strip or the meals & activities in between, the Summit provides many opportunities to talk flow with other hospital leaders.

Special PreConference Workshop

The Institute for Healthcare Optimization (IHO) is hosting a half-day workshop, **Applying Queuing Theory to Health Care: A Necessary Step Toward Improving Quality of Care and Margin** taught by Dr. Eugene Litvak, who has been teaching queuing theory to clinicians for many years. Several different queuing theory models will be introduced and accompanied by extensive exercises.

CNE Contact Hours

Nurses can earn up to 17.48 CNE contact hours by attending both the Summit and the pre-conference workshop. These learning activities were approved by the Utah Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
