GSI, Inc.*

Oracle JD Edwards return on investment (ROI) and time to benefit have officially been changed forever! JDE Cloud⁹, a new cloud-based hosted service from GSI, Inc., offers enterprises the easiest and most cost-effective way to purchase, implement, customize, utilize and manage Oracle JD Edwards software. Organizations also gain total support ownership through a single hardware and software vendor because JDE Cloud⁹ utilizes Oracle's RedStack and Oracle's Virtual Compute Appliance (VCA) technology.

JDE Cloud⁹ offers enterprises the lowest barrier to entry for leveraging this critical application in a high-performance cloud environment for just pennies on the dollar compared to traditional purchased solutions. The application and cloud infrastructure combination enables companies to scale their environment based on fluctuating or growing business needs. And the best part? Your JDE Cloud⁹ solution can be up and running in as little as 24 hours!

If you are serious about putting the focus back on growing your business instead of maintaining your business system, now is the time for GSI's JDE Cloud⁹ solution.
