**EXPERIENCE, RESULTS,  
AND AN ARTISTIC EYE**

As a sculptor and a painter, board-certified facial plastic surgeon Dr. Kevin Sadati taps into his artistic talent, scientific understanding of human anatomy, surgical training and finesse and his holistic approach to human relationships to deliver the natural, non-surgical-looking results that he is so well-known and recognized for. Dr. Sadati believes that art is the highest form of human expression. "Art has complemented my work as a facial plastic surgeon, allowing me to see and express myself more profoundly. It allows the integration of heart, hand, mind and soul," says Dr. Sadati. Kevin Sadati D.O., FAACS, specializes in facial rejuvenation with natural results that leave patients looking more youthful and feeling better about themselves. He developed a unique lower face and neck lift technique performed under local anesthesia and twilight sedation that can take years off of a patient's appearance in approximately two hours. His technique has been published in peer review journals and presented at numerous plastic surgery meetings. Please contact Dr. Sadati's office to schedule your complimentary cosmetic consultation.
