

# **DIVERSIFIED FALL PROTECTION**

Diversified Fall Protection is an international engineering firm specializing in the design and development of engineered, OSHA-compliant fall protection systems. And since 1994, Diversified Fall Protection has contributed to preventing one of the most common causes of work-related injuries and employer citations imposed through regulatory bodies, by installing thousands of fall protection systems. For this and other information, discover more at [www.FallProtect.com](http://www.FallProtect.com) and purchase our guardrail online at [www.PortableGuardrail.com](http://www.PortableGuardrail.com).

## *Office of Engineering*

### **Kevin Wilson Structural Engineer**

Bachelor of Science in Civil Engineering, The Ohio State University

## **Profile**

A Structural Engineer with nearly four (4) years experience in state and privately operated engineering firms, Kevin utilizes unique but practical engineering concepts, practices, and procedures, taking ownership of turnkey design-build projects at the proposal phase through final design. And while Kevin has notable experience in construction project management and civil engineering with emphasis in structural principles, his expertise and core competency will continue to evolve under the direction of a Professional Engineer and a team of Structural Engineers, Designers, and Project Managers at Diversified Fall Protection.

American Society of Civil Engineers (ASCE) Member

## **Contributions**

- ◆ Structural Evaluation of Existing Buildings
- ◆ Equipment and Foundation Design
- ◆ New Construction Inspection
- ◆ Structural Steel Design and Erection

## **Expertise**

Buildings  
Steel Fabrication  
Commercial · Mills  
Temporary Traffic Control Design
