

Testimonials

“Thank you for offering such a wonderful, one of a kind program that offers so many opportunities to our kids. Our player has gone thru anger & awareness, sadness to success and much more. Our player’s grades have gone from F’s & D’s to C’s , B’s, and A’s. He knows more about his potential and is also more aware of others.” -HL Parent

“She has improved her confidence towards others. She is now her own person and doesn't allow people to push her around.” -HL Parent

“This program has shown him to be responsible at home and school by doing his chores and his homework. Teachers have contacted me about his change in behavior. I let them know he was attending HL program where my son learned to communicate effectively and also to have responsibilities. My son was always afraid to speak up and talk to other classmates and his teammates. Now he has confidence in himself. We are so blessed for this program.” - HL Parent

“This program has really been a life changing experience for me and my son. It teaches life coping skills as well as consequences in making good and wrong choices in life. I, as a parent have learned a different way of parenting thanks to the guidance and support of Pat and his approach to guiding my son. His attitude is much calmer and positive form this program. As a single mother trying to raise a son I am so thankful for the help. He has grown tremendously in just a few weeks. To say the least HOOPS Life was simply a blessing for my family.” -HL Parent

“What I didn't realize was that my son would be learning so much more than basketball skills. At 13 my son is going through the usual gamut of teenage emotions. A roller coaster of elation, tears, frustration, testing of boundaries and then all over again. HOOPS Life is teaching him how he can deal with these very real and very normal emotions in a safe, no judgement zone. He is learning self awareness, the importance of camaraderie, that it's okay to fail, and the priceless feeling of accomplishment and self confidence.” -HL Parent
