**Stowers Power Systems Named Gold Distributor of Toshiba Uninterruptible Power Systems**

**HOUSTON, TX — April 17, 2015** — Toshiba International Corporation (TIC) today announced the addition of Stowers Power Systems to the expansive network of Toshiba Uninterruptible Power Systems (UPS) distributors. Stowers joins the growing list of Toshiba UPS Gold Tier distributors and authorized service providers who are qualified to offer the latest in Toshiba energy management technology.

“Stowers Power Systems is a leading power generation provider in eastern Tennessee and a practical channel for Toshiba UPS products,” said Greg Mack, Vice President and General Manager of the TIC Power Electronics Division. “Stowers has a proven legacy of power systems expertise that now is complemented by the reliability of Toshiba Uninterruptible Power Systems.”

Stowers Machinery Corporation has been the Caterpillar-authorized dealer in eastern Tennessee since 1960, with six locations in Knoxville, Chattanooga, Kingsport, Crossville, and Sevierville. Stowers Power Systems, the company’s power generation division, serves customers in the manufacturing, electrical contracting, building construction, utilities, healthcare, and telecommunications industries with Cat® diesel and natural gas generator sets, Olympian™ gas generator sets, Cat switchgear and transfer switches, and Toshiba Uninterruptible Power Systems. Learn more at [www.stowerspower.com](http://www.stowerspower.com).

“Toshiba has a reputation for reliability which is key to power delivery systems,” said Matt Kirkpatrick, Sales Manager at Stowers Power Systems. “We look forward to incorporating their power electronics products into our diverse offering of power generation solutions.”

Toshiba UPS products now available through Stowers include uninterruptible power systems, battery cabinets, flooded batteries, tie cabinets, input/output switchgear, power distribution units, remote power panels, and monitoring equipment. As a Gold Tier distributor, Stowers offers the latest in Toshiba UPS technology such as the new three-phase 4400 Series UPS and single-phase 1600XPi Series UPS. The reliability and efficiency of Toshiba UPS products will be more accessible to growing industry in Tennessee, providing energy management and power quality solutions to utilities, healthcare, telecommunications markets and more.

**About Toshiba**

Toshiba Corporation, a Fortune Global 500 company, channels world-class capabilities in advanced electronic and electrical product and systems into five strategic business domains: Energy & Infrastructure, Community Solutions, Healthcare Systems & Services, Electronic Devices & Components, and Lifestyles Products & Services. Guided by the principles of The Basic Commitment of the Toshiba Group, “Committed to People, Committed to the Future,” Toshiba promotes global operations towards securing “Growth Through Creativity and Innovation,” and is contributing to the achievement of a world in which people everywhere live in safe, secure and comfortable society.

Founded in Tokyo in 1875, today's Toshiba is at the heart of a global network of over 590 consolidated companies employing over 200,000 people worldwide, with annual sales surpassing 6.5 trillion yen (US\$63 billion).
