

HOLOGRAPHIC DISPLAYS

Bring products and POP displays to life with holographic displays that interact with products, communicate features and engage viewers

Looking for creative ways to spice-up the promotion of your products at conferences, exhibits, tradeshows and marketing activations? Holographic displays offer an affordable, ROI-rich alternative that engages audiences with your brand in captivating new ways.

Our 32-inch holographic displays, for sale or to rent, are fully integrated illusions that use cutting-edge technology to combine physical objects with 3D imagery that lend an aspect of virtual reality to any viewing experience.
