## NWL Announces the Launch of its Revamped Website at [www.NWL.com](http://www.NWL.com)

NWL, Inc., a leading manufacturer of power supplies, capacitors, transformers and inductors, announces the launch its revamped website at <http://www.NWL.com>.

**Bordentown, NJ, April 21, 2015** – NWL, Inc. today announces the launch of its new, revamped website at <http://www.NWL.com>. NWL is a leading manufacturer of power supplies, capacitors, transformers and inductors, and this new website showcases these products and NWL's manufacturing capabilities.

There are four categories in the Products section of the new website, featuring NWL's main product lines: electrostatic precipitator (ESP) products (including power supplies, ancillaries and controls for ESPs), capacitors, transformers & inductors, and power supplies. Product pages include an overview of the product line, deep technical information that customers need to be able to quality NWL's products for their application, and a photo gallery.

The ESP section includes information about NWL's PowerPlus™ power supplies for ESPs (<http://www.nwl.com/products/esp-products/powerplus-power-supplies-for-esp/>). The Capacitors section (<http://www.nwl.com/products/capacitors/>) has information about all 13 capacitor series, organized by four groupings: High Energy Storage/Pulse Discharge, DC Continuous Voltage/Input Filtering/DC Link, AC Voltage/Resonant Tank/Harmonic Filtering, and Snubber Protection/Clamping/Commutation. These two sections have detailed quote request forms that allow users to easily communicate their specifications to NWL.

“The new NWL website makes it easier for customers to do business with NWL,” said Dave Seitz, NWL's President. “Users can easily find what they need, get detailed product information, and inquire about our products. Of course, our staff is always available if customers prefer to discuss their needs directly.”
