Atlas RFID Solutions Certifies New Rugged Mobile Tablet for use with Jovix™

Motion F5m Offers Significant Processing Power and Durability

Birmingham, Ala., April 30, 2015 — [Atlas RFID Solutions](#), the world leader in modern materials management for industrial capital assets, announced today the availability of a new, lightweight, rugged tablet designed to withstand the harsh environments of industrial construction. This tablet weighs just over 3 pounds, is resistant to extreme hot and cold temperatures, and is equipped with shatter-resistant glass and a durable exterior.

The Motion F5m is a rugged Windows-based tablet with a Class I Div 2 (CID2) option that enables it to be used within active operating facilities. The tablet also offers significant processing power and battery efficiency, as well as a durable exterior, rugged 10.4 touchscreen display, full color workspace, and passive RFID reader.

Atlas RFID Senior Vice President of Product & Market Strategy, [Josh Girvin](#) states, "Atlas certified this tablet for use with Jovix™ in order to address a demand for the fastest, most rugged and user-friendly equipment available. Our clients need processing power, speed, and efficiency, and they need it to hold up in the field no matter the conditions. The Motion F5m has proven to be an effective mobile device in the industrial asset market and we are excited to offer it for use with Jovix™."

Atlas RFID Solutions has partnered with [Motion Computing](#) in the Jovix Certification™ of this tablet. Girvin adds, "The partnership between Atlas and Motion has enhanced the Jovix™ solution, offering enabling our clients to work faster and more reliably in the field."

About Atlas RFID Solutions

Jovix™ is an award-winning materials management application developed by Atlas RFID Solutions specifically for the industrial asset market. Jovix™ combines web-based server software with mobile and auto-ID technologies to extend access to information to decision makers in the field, as well as digitize and automate manual paper-based data collection processes. Jovix™ provides value for Owner/Operators, EPC firms, contractors, fabricators

and suppliers by removing impediments to productivity that result from material readiness issues.

To learn more about Jovix™, Atlas RFID Solution's modern materials management application used on more than 200 sites across the globe, and how it helps industrial construction projects increase efficiency, protect schedule and reduce unnecessary costs, visit www.atlasrfid.com or call +1 855-568-4151 in the US or +1 587-487-5737 in Canada.
