**Go Healthcare Staffing Offers New Approach to Travel Nursing**  
***Healthcare Staffing Firm Led by Industry Veteran Puts Focus on Nurses First***

**CHARLOTTE, NC – May 6, 2015.** [Go Healthcare Staffing](#), a new travel nurse staffing firm based in Charlotte, N.C., today announced the launch of its nationwide operations and outlined its plans to service healthcare providers in need of experienced, registered travel nurses to healthcare facilities in all 50 states.

Industry veteran Randy Holloran will serve as president of Go Healthcare Staffing. With over 20 years of staffing industry experience, Holloran brings a fresh new approach to the firm by focusing on a key component that he says many firms ignore— the needs of the nurses and their professional and personal satisfaction with the travel nursing experience.

“My many years in healthcare staffing have given me a deep appreciation for what nurses endure on a day-to-day basis while providing critical care to patients,” said Holloran. “More than any other role in today’s healthcare model, the nurse is critical to successful patient outcomes but so often the nurse’s needs are pushed to the background. Our approach is different; we believe that by providing our travel nurses with generous benefits and the support necessary to meet their personal and professional needs while on assignment, we will ensure much better connections with healthcare facilities and improve patient outcomes.”

Holloran believes leadership will play a critical part in the success of Go Healthcare Staffing and says he has assembled a core team of experienced travel nurse recruiters and senior management that is unmatched in the industry and that will result in long-term satisfaction for clients and candidates alike.

**About Go Healthcare Staffing:**
