ACCUZIP ACHIEVES RECERTIFICATION IN DATA SECURITY
Company is named as SOC2 Type 1 certified in Security, Confidentiality and Availability

ATASCADERO, CA – AccuZIP, a national software company based in Atascadero, CA, has recently been recertified in Service Organization Control 2 (SOC2) Type 1 in Security, Confidentiality and Availability after a rigorous auditing process.

Applications and software developed by a SOC 2 certified organization must be developed following specific processes and controls. This process ensures that products are developed, reviewed, tested, and released following the AICPA Trust Services Principles. The result is an application that has been developed under an audited processes and controls to help ensure the highest level of trust and security.

According to CEO Steve Belmonte, "Our industry has set very high standards for security, availability, and confidentiality. Getting our recertification is an important validation we are serious about protecting our clients confidential information and that our services exceed their expectations and have strict standards for availability."

AccuZIP, Inc. is a national direct mail software company based in Atascadero, CA. AccuZIP provides solutions to manage Contact Data Quality, Address Hygiene, USPS Postal Presorting and Compliance and Mail Tracking and Reporting. Since 1992, AccuZIP has been the leading provider of data quality software incorporating their core values of service, loyalty, innovation, excellence and integrity.

AccuZIP's most recent mailing software, AccuZIP6, was named *2014 Product of the Year* by EPICOM, formerly known as AMSP/NAPL/NAQP. The award is presented to a company that has produced a product that improves product offerings, profitability, or customer service and satisfaction in the commercial print market.

"AccuZIP represents the very best qualities of the kind of creative and innovative vendor on whom our members and industry rely," said Mitch Evans, NAQP managing director, and vice president of EPICOM, formerly AMSP/NAQP/NAPL. "AccuZIP was founded in 1992 and has led the industry as a creative and strategic thinking organization. They have provided software solutions designed to be fully functional and feature rich yet extremely cost effective."
