

We would like to introduce the inspiration behind our new logo and what it means for Comar as a company and as a family.

Comar remains a company focused on quality, service, and innovation.

GREEN

Our Growth

Green represents new growth on a national and global scale, and Comar's continued quest to add to our many innovative leadership positions. Green is also associated with health, calming, and nature — linking it to our company mission statement of protecting and enhancing the health and well-being of families here and around the globe. It reminds us to be mindful of our environmental footprint and to preserve our planet for future generations.

DARK BLUE

Our Strength

Dark blue is associated with the qualities of credibility, expertise, and professionalism. It signifies a sense of security and trust in our brand, and our reputation for providing the best packaging solution products for the medical and healthcare industries. Being in the center, it binds everything that Comar is today and will be tomorrow.

TEAL

Our Foundation

Teal represents Comar's roots, which lie predominantly in the Health and Wellness market — an industry where we have built great trust dating back to 1949. Our roots and core values protect Comar's present and future. They remind us of why we continue to exist and grow as a leading brand: to innovate and create high-quality packaging and dispensing products, with best-in-class customer service.
