

Keystone Dental, Inc., & Adarve Prosthodontics invite you to an evening seminar entitled:

Esthetically Driven Restorations: Incorporating Pink Prosthetics Into Clinical Practice

A Hands-On Workshop Including Various Impressioning Techniques & Seating Restorative Components

May 28, 2015 • Apple Valley, MN • Adarve Prosthodontics Learning Center

Courtesy: Stephen J. Chu, D.M.D.

1 Year Post-Operative

Seminar Objective

This hands-on prosthetic course is intended for restorative dentists and will cover details of esthetic single-tooth implant restorations and options for fixed prosthesis and short span fixed prosthesis. Implant design rational, treatment planning and the principles of cement prostheses are also presented. The speaker will identify the advantages of a modern implant-abutment connection from a restorative perspective and their influence on white and pink esthetics. At the completion of this lecture attendees will understand the implant features and prosthetic components needed to obtain ideal, long-term, stable esthetic results. This restorative course will help increase understanding that implant dentistry is a prosthetic discipline with a surgical component.

About the Speaker: Ranier M. Adarve, DMD, MS, MHPE

Dr. Ranier M. Adarve is an Associate Professor in the Division of Prosthodontics Department of Restorative Sciences at University of Minnesota School of Dentistry. He completed his Masters in Science of Dentistry and residency in Prosthodontics in 2005 at University of Minnesota. Currently, he is the Course Director in Fixed Prosthodontics and also teaches in the Graduate Program in Prosthodontics. In 2012, Dr. Adarve is the recipient of Teaching Excellence Award from American Dental Education Association for his teaching innovations and scholarly activities. Dr. Adarve also has part time private specialty practice at Adarve Prosthodontics in Apple Valley. His practice focuses on Implants and Restorative Dentistry. He lectures at local and international conferences and also runs his own learning center where he teaches general dentists restorative techniques and best practices.
