Wood-Mizer Releases New Line of Lumber Drying Kilns

Four dehumidification kiln kits available from world leading sawmill company

Indianapolis, IN – Wood-Mizer LLC, the world’s leading sawmill manufacturer, releases a new line of lumber drying dehumidification kiln kits. The Wood-Mizer KD Series of kilns, ranging from 1,000 to 35,000 board feet capacities, offer a variety of lumber drying solutions for any sized operation.

Joining the Wood-Mizer KS50 Solar Kiln, the KD Series of Dehumidification Kiln Kits feature 100% corrosion resistant aluminum cabinets and specially coated dehumidification coils to ensure quality performance and an extra-long life.

KD150

- Capacity: 300- 1,000 board feet

KD250

- Capacity: 1,500- 4,000 board feet

KD450

- Capacity: 4,000- 15,000 board feet

KD550

- Capacity: 10,000- 35,000 board feet

The KD250 Dehumidification Kiln Kit features a 4,000 board foot capacity.

“The KD Series gives both entry-level and mid-size lumber operations an opportunity to maximize the value of their lumber in-house while eliminating the need to rely on outside vendors for drying lumber,” said Darryl Floyd, Wood-Mizer COO. “With the addition of our new kiln line, Wood-Mizer continues to remain committed to expand our equipment and services in order to satisfy our customers’ sawing and lumber needs from forest to final form.”

The Wood-Mizer KD Series of Dehumidification Kiln Kits is available for purchase. Visit www.woodmizer.com/kilns for more information.
