Get started with these great FREE features:

**VIDEO CALLING** – ManCrunch is the world's first gay chat app that features video calling.

**VIDEO PROFILES** – ManCrunch takes profiles into the future by letting you record up to a 10s video clip as your profile picture. You can still choose a photo if preferred and remember to keep it clean!

**GEOLOCATION** – Checking out where people are has never been easier with ManCrunch's unique cluster-based mapping feature. Zoom out to see where groups are congregating or zoom in to get a better idea of who is nearby. Browse mode lets you see who is closest to you in a grid fashion.

**THE WINK GAME** – Bored? Cycle through local ManCrunch users and wink at them, pass, or make them a favorite. ManCrunch Unlimited users can play the Wink Game with users around the world – and know when they wink back! All Winks are anonymous. No one will ever know you've passed on their profile.

**PRIVATE LIBRARY** – Use our secure Private Library for photos or videos that you don't want to store on your phone. They are always only accessible by you – you only share them with people you choose.

**READY FOR RIGHT NOW?** - Use the HOT indicator to let people know you are ready to meet right now!

**WINK COUNTER** – Every time someone winks at you, you will be notified who winked in messaging so you can start up a conversation. Additionally, located in your profile is a counter which builds a running total of how many winks you have received since joining ManCrunch. This is visible ONLY TO YOU.

**FAVORITES** – Easily and quickly mark someone as a favorite for easy searching later on.

**ANIMATED EROTICONS** – Send an animated eroticon to someone letting them know how you are feeling. Additional eroticon packs are available for ManCrunch Unlimited users.

**PRIVATE NOTES** – Store private notes about a user in their user profile, and they are visible only to you.

**PIN CODE SECURITY** – Keep your conversations private by using a 4 digit launch PIN code to unlock the app.
