EXCLAIMER CLOUD

SIGNATURES FOR OFFICE 365

With **Exclaimer Cloud – Signatures for Office 365**, all email is guaranteed to get a full, dynamic and professional email signature when sent from any device, including Macs and mobiles. It also allows for easy management of specific email signature elements including social media icons, promotional banners and legal disclaimers from one intuitive web portal.

exclaimer™ cloud
signatures for office 365

1 Design email signatures from a library of professional signature templates, giving them to individuals or a group/department.

2 Your users send emails via Office 365 from any device like a PC, Mac, smartphone or tablet.
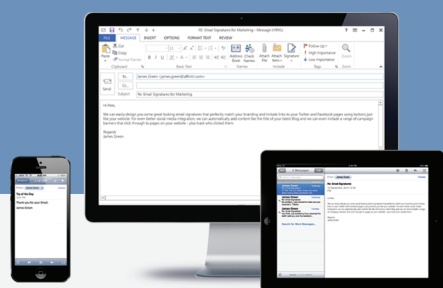

3 Emails pass from Office 365 and are routed to Exclaimer's regional Azure servers.
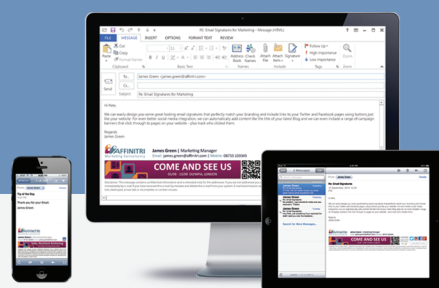

4 Exclaimer Cloud - Signatures for Office 365 sees the incoming messages, adds the appropriate signature to each email and passes them back to Office 365 for sending.

It's as simple as that! All emails are guaranteed to have the correct signature while staying within the Microsoft Cloud environment.
