

FIND AND CREATE NEW FIELDS

League For Soccer is the only soccer app that helps soccer players find nearby fields to play and compete. And it allows players to continue to build the network of field locations for other players to discover.

1 FIELDS MAP

League For Soccer lets you scan the map for fields in your area to compete at. Nothing keeps you on your toes like going to a new field and making a name for yourself. New fields are being added daily by competitive League members like you!

2 CREATE A NEW FIELD

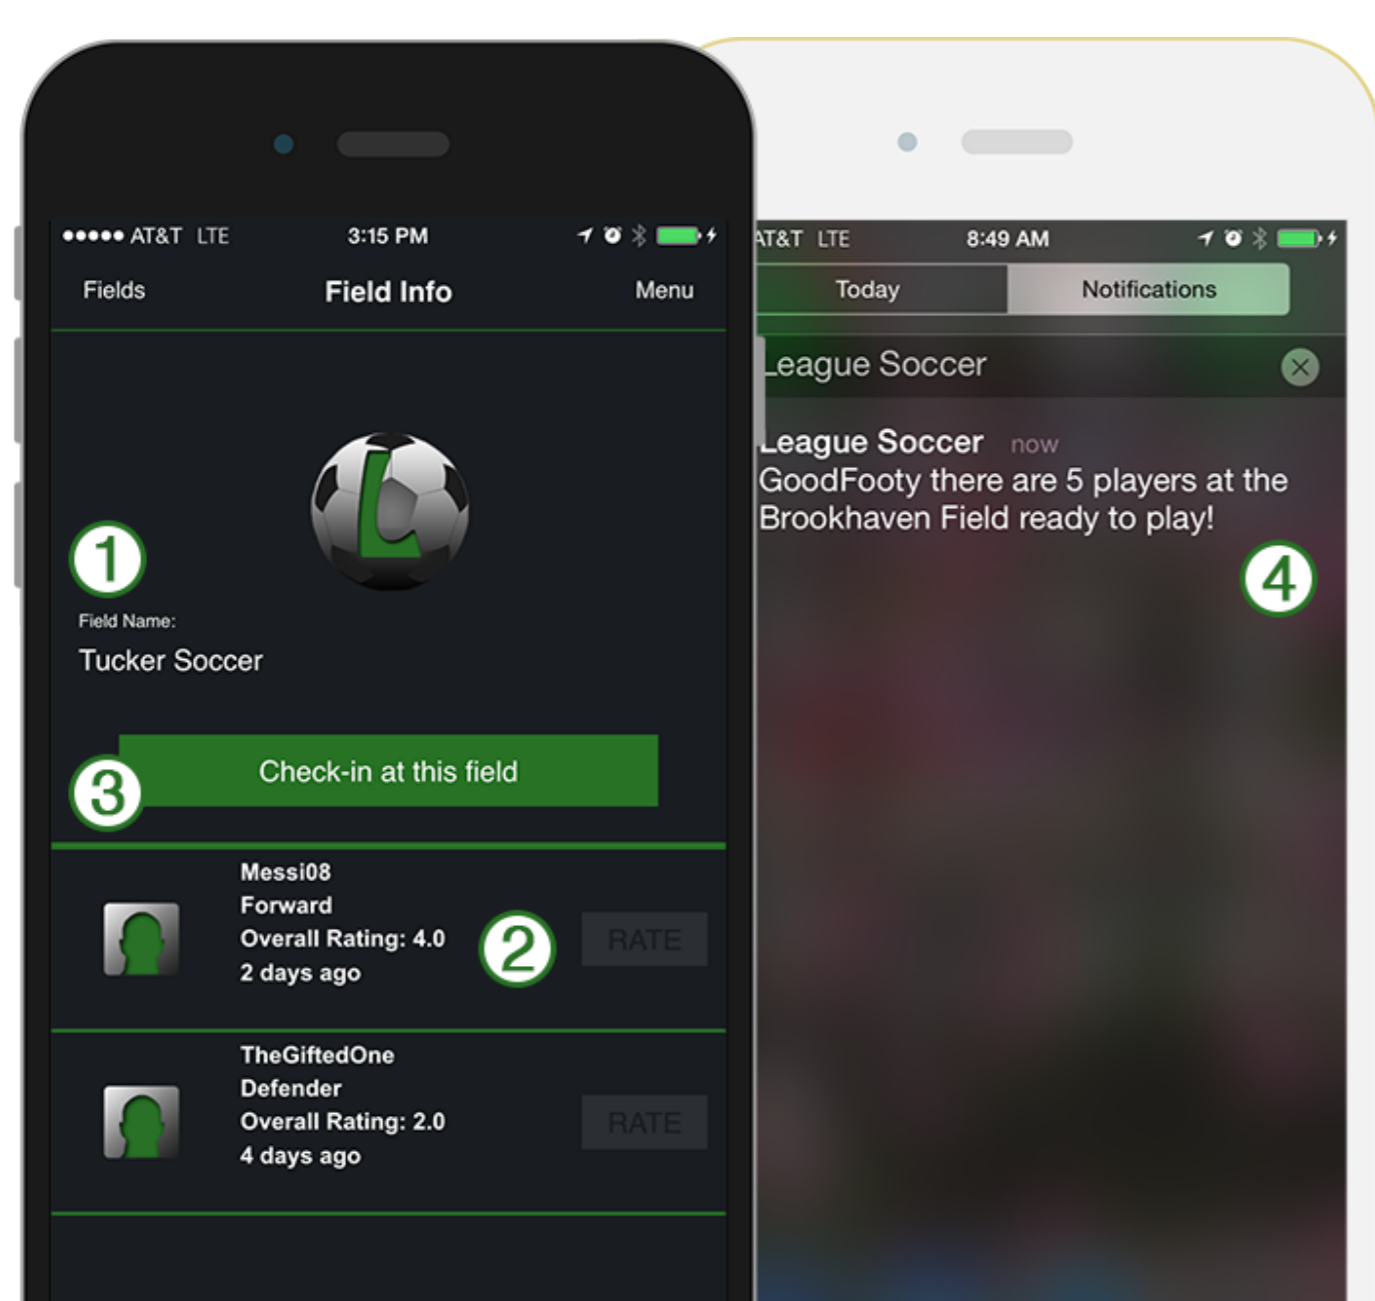

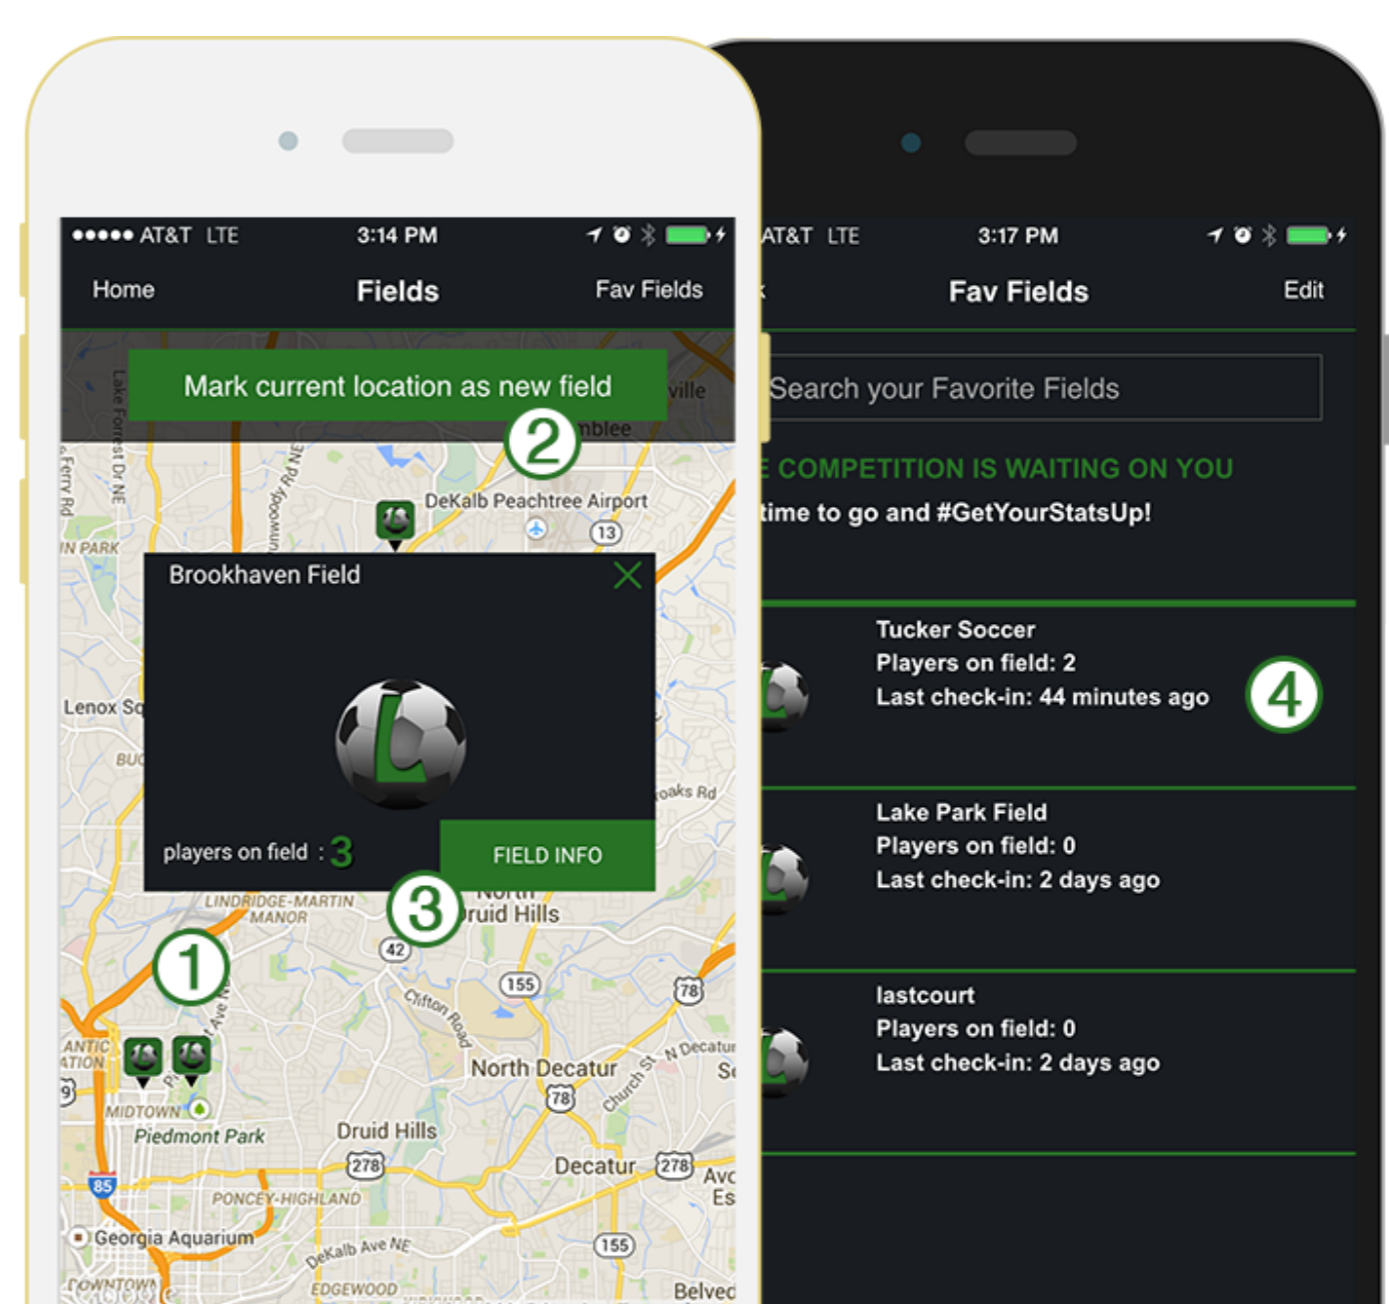

If you are at your favorite spot to play soccer and it is not already on the map, then tap the "Mark current location as new field" button when you are there to mark your territory on the fields map. Now other League members can discover a new field.

4 FAVORITE FIELDS

League For Soccer members can add and remove any field on the map to their "Fav Fields" list. If it's been awhile, you might want to pay the competition a visit.
