

iPatientCare EHR Secured 8th Place for Most Popular EHR Software Solution in 2015

iPatientCare takes pride in announcing the presence of iPatientCare EHR on Capterra's list of The Top 20 Most Popular EHR Software Across USA

iPatientCare, Inc., a pioneer in mHealth and cloud based ambulatory EHR, Integrated Practice Management and Patient Portal Solutions, proudly announce the 8th place secured by iPatientCare EHR among the nation's Top 20 list of the Most Popular Electronic Health Records Software for 2015. As per the infographic on the top 20 most popular EHR software released by Capterra after measuring a combination of their total number of customers, users, and social presence, iPatientCare EHR successfully secured the 8th place out of 20.

Electronic Health Record (EHR) software gives medical professionals access to patient medical records from a centrally-accessible system and has a market size estimated to hit \$6 billion by 2015, growing at a rate of over 16% per year. Considering the points mentioned, this infographic assist end users by providing the list of the most popular options after carefully measuring combination of their total number of customers, users, and social presence.

Capterra is providing a free service to help businesses find the right software by offering the most comprehensive list of business software solutions on the web so that end users can find the best match.

iPatientCare is advanced, accessible and highly available application platform that integrates Meaningful Use Stage 2 certified ambulatory and inpatient EHR, professional and institutional billing system, patient portal, health information exchange, and mHealth suite.

"Providing best technology solutions and services are both; a professional will as well as personal humility for iPatientCare. Our constant growth as indicated by Capterra rankings signifies the trust we have received from our end-users and medical fraternity at large. We are committed to provide Better Outcomes, at Reduced Cost which are achieved Meaningfully", said Pranav Patel, General Manager, iPatientCare.

"iPatientCare is committed to transforming healthcare delivery clinically and financially, and helping our users expeditiously adopt Meaningful Use is a step in that direction. These industry achievements signify the commitment from the iPatientCare team, and our EHR to stand behind our guarantee of getting our customers the stimulus money quickly and efficiently", said Udayan Mandavia, President/CEO, iPatientCare.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR,

Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at [ONC Certified Health IT Product List](#).

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

The company has won numerous awards for its EHR technology and is recognized as an innovator in the field, being a pioneer to offer an EHR technology on a handheld device, an innovative First Responder technology to the US Army for its Theatre Medical Information System, the first to offer a Cloud based EHR product. iPatientCare is recognized as one of the best EHR and Integrated PM System for small and medium sized physicians' offices; has been awarded most number of industry Awards; and has been recognized as a preferred/MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and academies.
