Skelia

With Skelia you have the most talented IT bench in Silicon Valley

Skelia is a global IT company providing software development, quality assurance, consulting and outsourcing services. We have helped companies from series A all the way through IPO and beyond with some of the world's finest IT talent. Headquartered in Europe, Skelia operates through a global network of offices in Luxembourg, the United Kingdom, the Netherlands, Ukraine, Poland and the United States.

Project Outsourcing

We realize and test your prototypes and designs, mobile apps, software products and core systems.

Dedicated IT Teams

We recruit and set up your dedicated team of IT professionals in a controlled environment and enable real cross border collaboration.
