Ladies and gentlemen,

*"Moringa has important medicinal properties but is not endangered. In fact, perhaps like no other single species, this plant has the potential to help reverse multiple major environmental problems and provide for many urgent human needs"*

On behalf of the organizing committee, I would like to invite you to the International workshop entitled "Global Moringa Meet 2015: A Decade of Advances in Research and Development." Following the success of the previous international Moringa Meets, we are pleased to announce the successor; the **Global Moringa Meet** takes place in Jaipur, India on 21 & 22 November 2015... The overall goal of this meeting is to bring together Moringa fraternity to share new knowledge and information on Moringa, the multi-purpose tree, and to promote the sustainability of its production, processing, utilization, marketing and trade as well as consumption for health and vitality, industry profitability and competitiveness in the context of globalization. This 2 days International workshop will also provide a unique opportunity for open discussions & exchange of views about the issues pertaining to Moringa business

Moringa oleifera is an essential plant in meeting Global food security and sustain the livelihoods of many millions of people. Climate change provides both opportunities and challenges for attaining the potential contribution of the wonderful tree for sustainable human development. Strategies need to be developed to address key issues in productivity, crop plant soil/water/energy resources management, and postharvest utilization as food and feed, nutritional and health value addition, and trade and commercialization, so that the role of Moringa in ensuring sustainable development can be enhanced. On realizing the potentiality of moringa as a nutritional security provider and the high value energy crop, much importance is attached globally and this is the right time to gear up for research and development activities to reap its fullest potential. Aiming at promotion of the international exchange and cooperation in above mentioned fields; 2 day Global Moringa Meet (GMM 15) on November 21 & 22, 2015 shall provide new insight in the potentiality of this crop for future exploitation and formulate strategies for developing moringa failsafe farms and also helps new growers to have holistic information on moringa crop.

The Scope of GMM 15 will cover the academic research activities in Agronomy, Horticulture, and Biology, industrial practices in biofuels, Marketing and Financial aspects of Moringa commercialization. The program includes invited speakers, interactive discussion sessions, and free time for informal interaction with colleagues. The upcoming meet will continue the tradition of presenting and discussing the latest advances in Moringa research, development and industry in a wonderful location, with a relaxed and a collegial atmosphere.

On behalf of the organizing committee, we are honored to welcome you to GMM 15 in beautiful downtown Jaipur. It will be a great pleasure to share the up-to-date advances in both fundamental researches and engineering practices, and to project the areas where we may contribute to our better life and planet.

We would like to thank you to consider attending this International Meet. In putting this Global event together, we will strive to make your experience in Jaipur, India, memorable and enjoyable as much as possible.

We look forward to seeing you in November 2015 in Jaipur, India and thank you in advance for participating and contributing to the success of this event with participation.

With kind regards,

Yours truly

DP MAHARSHI  
PRESIDENT
