

## **Dade Moeller to Continue EPA Radiation Preparedness and Response Support**

*EPA awards contract to Tetra Tech team for Environmental Response Team support*

**RICHLAND, Wash. – (August 5, 2015)** – The Tetra Tech team, which includes [radiation protection](#) firm Dade Moeller, has been awarded a contract by the U.S. Environmental Protection Agency to continue its support of the agency’s Environmental Response Team. Dade Moeller provides a range of emergency preparedness and rapid response services that support EPA’s preparedness for potential events involving radioactive or nuclear materials. Dade Moeller has supported the agency’s Environmental Response Team under two prior Tetra Tech contracts; the new contract has a 5-year period of performance.

“We are pleased to have been an essential member of the Tetra Tech team over the past 10 years, and to continue our support of EPA’s national [radiological preparedness and response](#) capabilities,” said Dade Moeller President David McCormack. “This contract represents an important part of the nation’s mission to protect the public and the environment from potential events involving radioactive and nuclear materials.”

As a member of the National Response Team, EPA ensures environmental response readiness by maintaining instrumentation and trained personnel at three Environmental Response Team locations across the country: Edison, N.J.; Erlanger, Ky.; and Las Vegas. Dade Moeller supports the Erlanger location, which specializes in radiological response, by maintaining a variety of radiation monitoring instruments in “response ready” condition. Dade Moeller also is responsible for [training](#) EPA staff and contractor personnel on proper use of radiation monitoring instruments, responding to incidents and events, and pre-deploying to large events, such as Super Bowls, NCAA Final Four games, MLB All-Star games, and NASCAR races.

###
