

### THE DEVICE FOR ULTIMATE PHARMACY MOBILITY

Beacon Mobile is the latest innovation and addition to the Beacon Series. Users can stock Beacon using a mobile device, freeing them from the desktop client. Beacon continues to help you save time by making your stocking even faster.

- Reduces walking back and forth when stocking and searching
- All work performed without being tied to the desktop screen
- Beacon Mobile is assigned a scanner color just like a Beacon client
- Device allows user to:
  - Log in
  - Verify settings including IP address and WI-FI connection
  - Stock items using Vendor Put, Put Bin Put, or Return Put – all the put functionality of a Beacon client
  - Search by Barcode, Custom NDC, NDC, Location, or special locations In-hand, Put Bin, or Trash
- Long battery life: 8–10 hours of operation on single battery charge
- Standard 4-slot battery charger
- Includes single slot charging cradle that accommodates protective boot
- Includes safety finger strap and rubber protective boot for protection and ergonomics
