Guy Hudson joins Aerovox Corp as Director of Sales & Marketing

New Bedford, MA (August 10, 2015) - Aerovox Corp. has announced that Guy Hudson has joined the company as Director of Sales & Marketing. Guy has over 20 years' sales and marketing experience in the energy and electronics industries.

Before joining Aerovox, Guy was Director of Sales & Marketing at Lishen International, Inc., where he developed global sales strategies for the company's portable power, power tool, computing, medical and distribution markets. While at Lishen, he increased U.S. sales significantly and positioned the company for strong growth in 2015. Prior to that, he held sales and marketing management positions at A123 Systems and Sanyo Energy. Guy believes his experience is closely aligned with Aerovox's markets and that the company is well positioned for aggressive future growth.

"We are pleased to welcome Guy to the Aerovox team," said Jim Faughnan, Aerovox President & CEO. "He brings many years of success achieving double-digit sales growth with his teams in his previous positions. I believe our sales and marketing programs, under Guy's leadership, will play a major role in reaching our growth objectives."

Guy earned his Bachelor of Arts degree in Business Administration and Marketing from National University in San Diego, California. He started his career with the U.S. Navy, where he received training in electronics. There, he achieved the rank of Petty Officer First Class as an Electronics Technician and Master Training Specialist.

About Aerovox Corp.

Aerovox is a leading provider of film capacitors for industrial, medical, military/aerospace and specialized applications serving original equipment manufacturers (OEM) and distributors. The company has world-class design, manufacturing and testing facilities in New Bedford, Massachusetts and global manufacturing facilities in China and India to enable quick turn-around for shipping and delivery worldwide. Aerovox capacitors are among the world's most reliable electronic components. The company's extensive custom design and development capabilities coupled with its broad, standardized product offerings allow it to provide intelligent capacitor solutions that meet or exceed customers' application requirements. <http://www.aerovox.com>
