Sales Enablement Toolkit

Empower your team with up-to-date information at their fingertips

Designed to provide instant updates to field sales, distributors, and vendors, the Sales Enablement Toolkit is a mobile marketing app that travels with your team. With SET, you can distribute new materials, launch products real time, reduce printing costs and remove out of date materials with ease.

Made available in Windows, iOS and Android platforms

Impress with Interactive Content

Completely customizable to your brand and product & service needs, SET showcases a rich media experience about your products and services in the field:
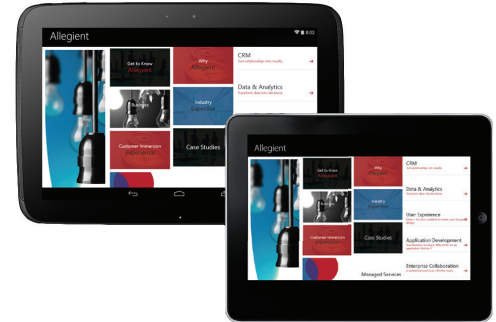

- Company & Product Videos
- Compelling Graphics
- Case Studies
- Product Diagrams

- Training Materials
- Product Launches
- Web Based Content

Control Your Message, Real Time

SET features a robust and easy-to-use Content Management System, which makes publishing updates and keeping your message current a breeze.

Tech Specs

- Application code written in C#, utilizing Portable Class Libraries
  - Xamarin Forms powers Android & iOS User Interfaces
  - XAML-based Windows Store & Windows Phone Application

- Hosted in Azure, Managed by Allegient
  - Web-based Content Management System, utilizing .NET MVC 5, JavaScript, HTML and CSS
