## DR. MIKE MAJMUNDAR SELECTED TO BE ONE OF THE FIRST ATLANTA PRACTICES TO OFFER RESTYLANE® LYFT

**Northside Plastic Surgery's Dr. Mike Majmundar offers only FDA approved filler for cheeks and "smile lines".**

Atlanta, GA, August 12, 2015- Mike Majmundar, MD, of Northside Plastic Surgery, is one of the first plastic surgeons in Atlanta to offer FDA approved Restylane® Lyft, formerly marketed as Perlane-L®. Restylane® Lyft is the first and only FDA approved filler shown to provide fullness to the cheeks and smooth and correct age-related midface contour deficiencies ("smile lines"). Dr. Majmundar has been artistically using Perlane-L® in his practice for years and has seen for himself the product's versatility and success in correcting volume loss while treating wrinkles in the face. Restylane® Lyft has over 15 years of proven safety data and approximately 6 million studied treatments worldwide, demonstrating it's a trusted, safe and effective product. It's specifically designed to provide patients with a high quality nonsurgical option that can deliver the natural-looking results they long for. Dr. Majmundar is not only an Atlanta "Top Doc" known for his expertise using fillers such as this injectable gel, he's also a recognized national trainer for Galderma, the global healthcare company that markets Restylane® Lyft, along with its other four FDA Approved Restylane® family of products, making him a top pick for Atlanta locals and visitors alike.

For more information about Dr. Majmundar and his team at Northside Plastic Surgery, or to schedule a free consultation with Dr. Mike, please call 770.475.3146 or visit [www.northsideplasticsurgery.com](http://www.northsideplasticsurgery.com) Offices are located in Atlanta and Roswell, GA.

If you would like more information about Restylane please visit [Dr. Majmundar Restylane Atlanta](#), contact Northside Plastic Surgery at 770.475.3146 or email [info@northsideplasticsurgery.com](mailto:info@northsideplasticsurgery.com).
