About Explore Outfitters:

Explore Outfitters doesn't operate the same way as most manufacturers do, which usually involves focusing on the business side of manufacturing and generating higher profits with cheaper materials and built-in obsolescence. Founded in Colorado Springs, Colorado, in the beautiful and breathtaking Rocky Mountains, the company is a closely knit, family-style operation. The company's staff members are nature, camping and hiking enthusiasts who actually use outdoor products, understand what goes into a high-quality product and commit to providing affordable gear that consistently outperforms competitors' products in all the qualities that really matter to outdoor enthusiasts: lightweight construction, durability, beauty, elegance, portability and packability. The company always strives to develop outdoor recreational products that each staff member would buy, use and recommend to his or her family and friends.

Company founder Shawn Gibson ensures that each company product complements the spirit of sharing nature's resources and outdoor adventures with loved ones and each adventurer's most intimate companion. The double camping hammock encourages partners to share their hiking, backpacking, camping, kayaking, surfing and sailing journeys. Hunters and anglers can also enjoy the company's products for napping after a long hunt or fishing session. The extra-large hammocks provide comfortable accommodations for large people who find standard sizes too small.

The proper method for hanging your hammock

Find a location between two trees or objects approximately 12-20 feet apart. We recommend hanging the hammock at about a 30° angle from the ground. The recommended height from the ground to the bottom of the hammock is no more than 18 inches.

How to set up your Explore Outfitters Hammock using the included ropes

Step 1: Wrap the double rope around the tree at your desired height. Pull the knotted end of the rope through the looped end. Pull tight.

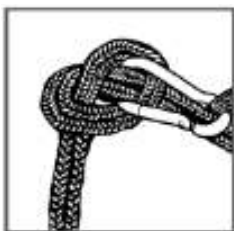

Step 2: Make a loop with both ropes at the desired location you desire to make the connection.

Step 3: Flip the loop you just made up against the rope directly above it, grabbing the two ropes between the loop.

Step 4: Attach the carabiner from the end of your hammock to the two ropes between the loop

Step 5: Pull the newly formed knot around the carabiner, tight.

Repeat steps 1-5 for the other side of the hammock.

How to safely get in your Explore Outfitters hammock

1. Stand next to your hammock with your backside to the hammock

2. Slowly sit down with your rear end inside the hammock

3. Lean your whole body back into the hammock

4. Choose your orientation: You can relax in your current position or rotate lengthwise

For more information on how to setup your hammock and for a product review you can view the following video: <https://youtu.be/Uh8KiLssxSA>

Explore Outfitters Photo Contest

Send us your selfies or photos and win!

Are you using your hammock in any exotic locations or just having fun hanging with your friends? We created the Explore Outfitters Photo Contest for you to show us your best times hanging around. Winners are selected at the start of every three months and are rewarded a free Explore Outfitters hammock and \$50 in an Amazon gift card! In addition, we feature the winning photos, and our favorite photos, on our social media platforms and Web site.

Go to: <http://exploreoutfitters.com/photo-contest/> to fill out your entry form, submit your images, and read contest rules.

Thanks for reading our hammock guide! Remember we are committed to your 100% satisfaction. If you have any questions or feedback please email us at: support@exploreoutfitters.com
