

The Power of Choice

Now you have the power!

No upfront cost. No obligation. Just choice.

PAY MORE FOR DIRTY ENERGY

For more than a century you were forced to pay for dirty, expensive, centralized power – you had no choice.

- Rate hikes – nothing you could do.
- Added fees – nothing you could do.

With Powur, you have a choice. You can power your home with sunlight and save money.

With our partner, SolarCity – the #1 residential solar provider in the U.S. – there is no cost for installation and you can save money every month. It all starts with a 10 minute Discovery Call:

- [Discover if solar works for you](#)
- [Discover your options in a free proposal](#)

PAY LESS FOR CLEAN ENERGY

Now you can save money and power a new economy. Solar has created more jobs than the tech giants Apple, Google, Facebook and Twitter combined¹ – and solar jobs are growing 8 times faster than oil, gas and coal combined².

With a 10 minute "Discovery Call" you can save money every month and support a brighter future – **now that's smart.**

- 1 [Provide your zip code to your Powur Advocate to see if you qualify](#)
- 2 [Complete your Discovery Call to see how much you can save](#)
