## **DUNMORE Adds Dedicated Development Engineer to Support Aircraft Product Development**

*Raymond Wu brings years of impressive results and experience in product design, development and material testing. Wu's expertise further reinforces DUNMORE's commitment to developing next generation aerospace materials.*

**Bristol, PA, September 1, 2015** - DUNMORE Corporation, a leading supplier of coated, laminated, and metalized films for more than 40 years, announces the hiring of Raymond Wu to the position of Aircraft Product Development Engineer. Wu brings a high level of skill and knowledge to DUNMORE with his experience in the areas of product development, process optimization and application engineering.

Wu joins the DUNMORE Aerospace group, a focused business unit dedicated to the development of aircraft and spacecraft materials. DUNMORE has been serving the aerospace industry for over 30 years and during that time has developed a reputation for excellence in engineered films, foils and fabrics for aircraft and spacecraft applications

(<http://www.dunmore.com/industries/aerospace.html>). Wu's addition to the DUNMORE Aerospace group as a dedicated development engineer bolsters DUNMORE Aerospace's commitment to the development of next generation aerospace products.

"Currently, DUNMORE is a gold level supplier for the largest aircraft manufacturers in the world and as the aircraft industry continues to face new challenges, DUNMORE Aerospace will be there to support their innovation and development," says Thomas Rimel, Vice President of Operations & Development. "Raymond's expertise in polymer science and adhesive technology supports the organization's goal to be the vanguard of materials innovation for the aircraft and spacecraft industries."

Wu comes to DUNMORE from DuPont, a global sciences leader and manufacturer of many engineered films that the aerospace industry relies on today. During his time at DuPont, Wu improved on the rapid creation and in-house testing of prototype products, enabling the company to exceed the project completion goals by over 5 months.

### **About DUNMORE**

DUNMORE Corporation is a global supplier of engineered coated and laminated films. DUNMORE offers film conversion services, such as coating, metallizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metallized film and laminating film substrates for the aerospace, photovoltaic, graphic arts, packaging, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com>.
