

ANALYTICAL GAS TESTING

Analytical Gas Testing & Qualification

Whitehouse Labs is a comprehensive analytical gas testing laboratory that offers USP-NF & EP process gas qualification for Pharmaceutical, Personal Care Product and Cosmetics manufacturers.

The process of qualifying gases routinely used in production operations is imperative. We help clients improve product quality, stability and process integrity using validated test methods in our cGMP, ISO 17025 environment. On-site gas sampling is available—if on-site sampling is not required, we offer a selection of stainless steel sampling cylinders. Our experienced team will work with clients to develop gas testing protocols and validation reports to ensure your company meets FDA requirements for medical / process gas usage.

- **USP / EP Nitrogen**
- **USP / EP Oxygen**
- **USP / EP Carbon Dioxide**
- **USP / EP Helium**
- **USP / EP Medical Air**

Angelito Mendoza

Director of Raw Materials and Gas Testing

Our labs are FDA established, cGMP-compliant, DEA registered and ISO/IEC 17025 accredited.
