FOR IMMEDIATE RELEASE

**Software Testing Training Week in San Francisco
features Agile, DevOps, Mobile, and Test Automation topics**

Jacksonville, FL, September 21, 2015 —SQE Training, a TechWell company, has announced that a Software Testing Training Week will be held in San Francisco, CA from November 2-6. This training week will feature four new-for-2015 classes: Test Improvement for Agile, Integrating Test with a DevOps Approach, DevOps Test Integration Workshop, and Mobile Test Automation Workshop.

“Mobile, DevOps, Security—these are topics that are important to software professionals,” said Alison Wade, President, Software Quality Engineering. “Our goal has always been to provide top-notch, hands-on instruction delivered by well-respected instructors. The 2015 training week program has been very well-received.”

SQE Training’s testing training weeks offer software QA and testing professionals the opportunity to maximize their skills training by building a customized week of instruction from up to 16 specialized classes. Attendees get both one-on-one interaction with instructors and opportunities to network with other software professionals. Details on all 16 courses can be found at sqetraining.com/trainingweek.
