Wellness Health Management, Inc. Announces Relocation of Corporate Headquarters

Clearwater, FL based medical company moves from industrial district to retail district—opting for less warehouse space and more office space.

Clearwater, FL, September 22—[Wellness Health Management Inc.](#), a medical company specializing in development, manufacture, sales and distribution of high performance health and wellness products and services, today announced the relocation of its corporate headquarters from the Clearwater industrial district to the Countryside Mall district. The new office is approximately four miles from its current location. The new address is 2744 Summerdale Drive, Clearwater, FL 33761.

The move stems from a diminished demand for warehouse space, since moving their pharmacy operations in 2014. The new building provides more office space to accommodate the company's growing staff.

“Our new location and facilities will enable improved internal and external communications and enhance our ability to provide superior service to our clients,” said Founder and CEO, Brent Agin, MD.

The new office space provides new amenities for employees including a high-tech corporate briefing room and facilitates improved client service.

“The move to a more retail-focused area allows us to expand our reach and continue to further our position as leaders in the health and wellness industry,” Dr. Agin said. “The new building is more centrally located and closer to our medical practice and other strategic partners.”

Wellness Health Management provides health and wellness products and services nationwide through an online network of healthcare providers. Since the company's inception and creation of their flagship brand [Trim® Nutrition](#) in 2005, they have been dedicated to the mission of Making Bodies Better™.

All company phone numbers and fax numbers will remain the same.
