

GRATIS

Messaging & Voice Calls Application

« We are developing an application for the great World Family and, since everyone is different, it will become your application thanks to a really adaptive design. The value of GRATIS is expressed by our passion to connect the Community of People with agility ».

GRATIS LABS, a Smart Cost Company*

The value of proposal

GRATIS, an application by GRATIS LABS, has got high-quality, reliable and proven features with wide customisation possibilities. The whole concept features 22 functions, 10 of which are new, which makes it unique on the market. GRATIS is definitely user-centred and user-friendly, quick and easy to use and its purpose is to be cost-efficient.

The embedded research, development and product management team ensures total control over the life-cycle of the application. The availability of the product is ensured through a solid package of operational services and a strongly client-oriented support organisation.

The commitment of the GRATIS LABS team relies on an extensive expertise on products and applications topped up by first-rate Telecom industry client services and techniques.

The clients of GRATIS enjoy the advantages of a new, relevant brand and of high-ranking expertise, commitment and autonomy.
