

## OFFICE 365 GRANULAR BACKUP & RESTORE

Cloud|AG's Office 365 backup services offer granular content protection for Exchange Online, SharePoint Online and OneDrive for Business. This provides your company with the benefits of the cloud combined with the peace-of-mind that you're still in control.

*DocAve Online's intuitive user-interface allows you to easily create backup plans that specify what Exchange, OneDrive or SharePoint data you want backed up, how often you want it backed up, and where you would like to store the backups.*

### Solution Summary:

- Backup all Exchange Online, SharePoint Online, and OneDrive for Business data
- Provide your company with the benefits of the cloud combined with the peace-of-mind that you're still in control.
- Select Azure storage or connect to storage devices over Secure File Transfer Protocol (SFTP) and File Transfer Protocol (FTP) networks, allowing for flexibility when determining which platform is best for the content being backed up
- Ensure business continuity by restoring content to storage locations in the event of Office 365 service disruption
- Completely online so nothing to install locally
- Available on a subscription basis or as a managed service.
