

CoverMyMeds to Achieve Strong Bonds with iPatientCare as one of the Gold Sponsors and Exhibitors for Upcoming NUCON 2015

iPatientCare is Pleased to Welcome CoverMyMeds On Board as a Sponsor at NUCON 2015, November 6-7, 2015.

Woodbridge, New Jersey, October 1, 2015 -- iPatientCare, Inc., a pioneer in [mHealth](#) and cloud-based ambulatory EHR, integrated Practice Management and Patient Engagement solutions, is glad to have CoverMyMeds aboard to participate at the iPatientCare National User Conference (NUCON) 2015 as a Gold Sponsor. [CoverMyMeds](#) is the most trusted Electronic Prior Authorization (ePA) platform and the only all payer, all medication PA solution.

Prior authorization (PA) is a permission slip from health plans for the patient to receive a particular medication, balancing the most appropriate therapy and cost effectiveness. In other words, PA is the administrative process for the necessary pre-approval of certain prescribed drugs. Traditionally, PA is completed with help of paper, faxes and phone calls between healthcare professionals.

CoverMyMeds automates the PA process for any drug and all health plans by integrating electronic health records (EHRs) systems, pharmacy systems, payers and prescribers in one online platform. [iPatientCare EHR](#) users will have further enhanced processes by using [ePA integrated into the application](#).

“We are pleased to see our solution with iPatientCare live and rolling out so successfully,” said Scott Gaines, Director of Business Development, EHR Solutions. “CoverMyMeds’ presence at NUCON 2015 will allow us to reinforce the new process with their users to continue adoption, allowing our partnership to reach its fullest potential.”

“iPatientCare strives hard to make healthcare IT work on the fingertips of their users. With constant innovations and achievements we have helped physician practices improve efficiency with the best service to their patients. Our integration with CoverMyMeds is the important step for long-term relationships and fostering partnerships with healthcare provider and payer organizations.” - Shripal Shah, Senior Technology Officer, iPatientCare, Inc.

About iPatientCare

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.
