

2008

- ▶ L4 Mobile is founded
- ▶ First client: MFunds, a money management mobile website

2009

- ▶ We partnered with ESPN to create Social Sports app
- ▶ It was great as a TV show, and great as an app. We made the I Love the 80's and 90's trivia games for Viacom.

- ▶ We worked with Universal Music Group to make the first classical music iPad app
- ▶ Selling wine online is tricky business, but we did it with the first commerce enabled wine app in the industry.
- ▶ With Nokia Siemens Networks, we created the first set-top box widget and application platform for broadcast television

2010

- ▶ We worked with Everyday Health to help them secure the market leading position for mobile health
- ▶ We created the retail industries first location based engagement platform with Point Inside

2011

- ▶ In our moment of zen, we designed and developed the Daily Show app
- ▶ We began development for the Amazon Kindle

2012

- ▶ We got really good with Chromecast. Like, *really* good.
- ▶ We became an inaugural member of the Amazon Kindle Preferred Developer Program

2013

- ▶ Average Americans watch 5 hours of TV a day, so we got into TV bigtime — we started developing for Android TV, Roku, and Samsung Smart TVs
- ▶ We are one of the first 15 developers on Apple TV

2014

- ▶ We developed the app that won the Best of CES award
- ▶ We won an Honoree Webby for Sesame Street Go
- ▶ We started developing for the LG Web OS TV, Samsung Tizen, and the Apple Watch
- ▶ L4 Mobile becomes L4 Digital

2015

- ▶ We expand from technology into social sciences and biology
- ▶ We buy an office Segway

2016

- ▶ We start making serious headway in biology and end disease
- ▶ We will like the first Segway enough to buy 2 more
- ▶ Through our social sciences research, we end war

2017

2018

- ▶ L4 Digital becomes L4 GloboCorp™
