**TruShield Security Solutions, Inc. Presents at  
Zambia Information and Communications Technology Authority (ZICTA)  
ICT Business Forum 2015.**

*TruShield Discusses How To Enhance Education in Africa Through Use of ICTs alongside CISCO, Microsoft, and Samsung at ZICTA Business Forum Panel.*

**Dulles, VA (October 8, 2015): TruShield Security Solutions, Inc.** is proud to announce its presence at the Zambia Information and Communications Technology Authority's (ZICTA) ICT Business Forum 2015. TruShield's expertise in ICT security in international markets as well as previous experience presenting at ZICTA resulted in the invitation to present at this year's ICT Business Forum.

"ICT is the key socioeconomic equalizer throughout the developing world and Africa specifically. Having a wealth of experience working on national-scale projects in Africa, we were honored to be asked to make a presentation about enhancing education through ICT" says Paul Caiazzo, TruShield Principal and Chief Security Architect. TruShield's Executive Vice President, Adley Francois adds "we participated in a panel discussion on ICT Security for ZICTA in 2013, and, as our invitation to return and present at this conference shows, it is no coincidence we're on the same stage as [CISCO](#), [Microsoft](#), or [Samsung](#) at this forum."

The ICT Business Forum and Expo aims to create a conducive environment for constructive interaction between policy makers, policy implementers, captains of industry and all major stakeholders whose lives are positively affected by ICTs. The theme for this year is: Innovate – Create – Thrive

Recognizing the role that ICT plays in creating an enabling environment for business development, the forum provides a platform to showcase new technologies and their positive impact on the Zambian economy. ZICTA ICT Business Forum 2015 takes place on October 7th through October 9th.
