Kenguru Technical Data

Standard Equipment

Propulsion System	
Drive Mode	Front wheel drive
Transmission	Proprietary direct drive
Engine Type	KLD oneDRIVE™ Electric Motors
Motor rated peak output	16.5 kW
Max. torque at stall	540 Nm/400 ft-lbs
Battery	
Battery technology	Lithium ion
Range	50 mi / 80 km
Charging	Onboard charger
CO ₂ – Emissions	None
Dimensions & Weights	
Length/Width/Height	114/60/59 in 2918/1520/1500 mm
Wheelbase	74 in / 1875 mm
Vehicle curb weight	1100 lbs / 500 kg
Gross vehicle weight	1550 lbs / 700 kg
Chassis	
Frame	Aluminum space frame
Front suspension	MacPherson
Rear suspension	Independent by rocking arms with springs and shock absorbers
Braking system	Hydraulic
Tires	175/60/R16
Steering system	Rack steering
