## Meet Our Farm Fresh Partners

### Kauai Organic Farms

Phil Green  
from Kauai Organic Farms

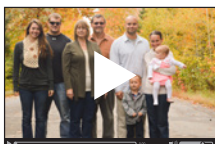

Turmeric and ginger's ability to maintain a healthy inflammatory response is what helps to balance the digestive system and colon to a state of wellness.\* These warming roots have also been traditionally used to promote digestion and soothe an upset stomach.\* MegaFood is proud to source domestically-grown organic turmeric and ginger root from Kauai Organic Farms. Phil and Linda Green, owners of the farm, love growing turmeric and ginger, especially for the infinite health benefits these foods provide.

To meet Phil and Linda Green and take a tour of their beautiful farm visit [megafood.com/kauai](http://megafood.com/kauai)

### James Lake Farms

Cranberries pack a powerful punch of PACs, a.k.a proanthocyanidins, a unique class of polyphenols associated with this super fruit's anti-adhesion properties which helps to ward off troublesome bacteria & yeast from sticking around.\* We searched far and wide to find the best organic cranberries rich in PACs. We were thrilled to have found James Lake Farms and the Stauner family who grow the best organic cranberries - ever!

Meet the Stauner family and take a tour of their farm during this year's harvest. Visit [megafood.com/jameslake](http://megafood.com/jameslake)
