For Immediate release:

GOERPcloud OPENS MICROSOFT DYNAMICS NAV 2016 TRIALS IN CLOUD DEMO ENVIRONMENT

Current Microsoft Dynamics NAV customers as well as businesses who are selecting new ERP software are now able to test drive Microsoft Dynamics NAV 2016 through the goERPcloud.com trial system.

SAN DIEGO, Calif. (October 12, 2015) Microsoft made the latest version of Microsoft Dynamics NAV generally available October 5 with new capabilities and new functionality only available in Microsoft Dynamics NAV 2016. The new updates are now available to try through the [Dynamics NAV 2016 demo environment](#) at goERPcloud, announced goERPcloud Friday.

Microsoft released Dynamics NAV 2016 with new capabilities to improve cloud based deployment, management and integration as well as improved mobile performance.

“Making the latest versions of Microsoft Dynamics ERP available to trial users and our Dynamics Partners is core to what we do, so releasing Dynamics NAV 2016 cloud trials in a timely fashion has been high priority,” said Jeffrey DeMaria, goERPcloud Product Manager. “Microsoft is rapidly increasing the speed of its release schedule and we are dedicated to keeping pace with them and making sure our demo environment is up to date as they release new versions of the products.”

Dynamics NAV 2016 builds on the trusted Dynamics NAV toolset by adding improved analytical functionality, with business intelligence and native integration to applications such as Microsoft Dynamics CRM and O365. The goERPcloud trial experience includes a full version of NAV 2016 that can be set up and ready to test drive in four simple steps with no credit card or commitment.

For more information on specific product details refer to this article, [Microsoft Dynamics NAV 2016 New Features](#).

About goERPcloud

goERPcloud is the first on-demand Microsoft Dynamics Cloud Marketplace that allows you to test drive different flavors of Microsoft Dynamics AX, GP, NAV and CRM with preconfigured 3rd party ISV applications. goERPcloud boasts a robust ecosystem of Microsoft Dynamics Partners, helping businesses find the cloud-based software solutions that best fit their current and future business needs.
