## TIMED DISPENSING UNIT HELPS PATIENTS INCREASE MEDICATION ADHERENCE

- Promotes independence, allowing patients to be in charge of their medication administration process

- Four (4) distinct alarm settings programmable for different times throughout the day

- Clear sound and light signal when it is time to take medication

- Includes magnifier for easy reading of instructions on AdherePacs

- AC plug for every day use, battery backup for power loss or when traveling

- Small, compact and portable

FROM THE PHARMACY TO THE PATIENT

Pharmacy prepares AdherePacs → Patient/Caregiver loads the roll into TheBox → Patient/Caregiver programs medicine dispensing times → Automatically notifies it's time for medications

SIMPLICITY IS KEY

Four alarm settings

Clip holds AdherePacs conveniently in place

Medication pass times are clear and easy to read with icons and graphics
