

Advanced Software Application Development.

On Time, On Target, On Budget.

Gehtsoft provides custom software development services that empower businesses to perform at their highest levels. Founded in 2000, Gehtsoft employs more than 90 skilled developers with years of experience in business analysis and project management.

Gehtsoft is ISO 9001:2008 Certified, which ensures that everything we do meets the highest standards of quality management and consistency. Every project begins and ends with a focus on quality, value, and above all, your satisfaction.

► Custom Development You Can Trust

Whatever your industry, Gehtsoft can develop any type of software on any platform for virtually any application. Custom solutions are designed to your specifications using leading-edge tools and technologies. Small businesses, Fortune 500 and non-profit organizations rely on Gehtsoft for innovative software that is as reliable as it is easy to use.

Our dedicated IT professionals have an unwavering commitment to quality and customer service. They will work closely with you throughout the entire development cycle – from initial analysis to testing and installation – to ensure you receive the agreed upon work at the agreed upon price. No more missed deadlines or mounting development costs. We deliver on time and on budget. Plus, Gehtsoft provides lifetime product support for any applications we develop.

► An Agile Collaborative Approach

Gehtsoft makes the development process convenient, efficient and effective. Using a consultative approach, we work closely with you to gain a deep understanding of the project scope and your unique implementation challenges. All work is guided by Agile Methodology Standards, guaranteeing you:

- Highly personalized service
- Efficient project management without the red tape
- Faster turnaround than most outsourced developers
- Responsive development that adapts to changing needs
- Lower costs and higher ROI

At Gehtsoft, we build lasting relationships based on trust. Let us manage your entire process or you can select only the individual services your project requires.

Industries Gehtsoft Serves

The industries we cater to are as vast as the technologies we produce. When your company requires highly complex software that delivers mission-critical results, you want a development team that streamlines the task with well designed and flawlessly executed applications.

- Aerospace
- Automotive/Transport
- Energy and Utilities
- Financial Services
- Manufacturing
- Media Publishing
- Telecommunications
- Travel

CASE STUDY: (NYSE:FXCM)

Gehtsoft brings value to the financial industry by bringing streamlined trading to FXCM.

Gehtsoft produced and supports several complex applications for FXCM, a leading, global online Forex Broker. Our custom software is used by hundreds of thousands of FXCM customers worldwide every day.
