Sigmatrrix Announces Silver Sponsorship of PTC LiveWorx Europe 2015

Sigmatrrix brings its precise, easy-to-use mechanical variation and tolerance analysis software to the most important pan-European event PTC hosts

MCKINNEY, Texas – November 3, 2015 – Sigmetrix, global experts in GD&T and mechanical variation announced they will be a Silver Sponsor of PTC LiveWorx Europe 2015 (<http://www.ptc.com/liveworx-europe>). The conference will be held November 17-18, 2015 at the ICS International Congress Center in Stuttgart, Germany. Sigmetrix will be in booth S 03 in the Solutions Expo.

“Businesses around the world are turning to Sigmetrix for GD&T and tolerance analysis solutions,” said Chris Wilkes, President and CEO of Sigmetrix. “PTC LiveWorx Europe 2015 attendees will experience firsthand how working with Sigmetrix and our partners can accelerate their design process and improve product quality.”

Sigmatrrix’ revolutionary solutions provide engineering teams with the insight required to confidently release designs to manufacturing. Precise calculation of surface sensitivities exposes the critical-to-quality dimensions in the assembly. Utilizing advanced mathematical solutions, these solutions accelerate optimization to achieve robust designs ready for manufacturing.

“Earlier this year, we had hundreds of folks stop by our booth at PTC Live Global to learn about our software and see CETOL 6 σ and GD&T Advisor in action,” said Mr. Wilkes. “They were thrilled to hear about the plans for GD&T Advisor with PTC in the future. We are excited to expand our presence into Europe by sponsoring PTC LiveWorx. It will be a great opportunity to show how both CETOL 6 σ and GD&T Advisor uniquely help engineers to shorten development time and improve quality.”

With the debut of PTC LiveWorx Europe, PTC fuses its world-class information sharing and networking event for product development and service professionals, called PTC Live Stuttgart in the past years, with the Internet of Things. Attendees will be able to access sessions hosted by customers, technology peers and PTC product experts sharing vital best practices as well as listen to visionary keynotes.

Between sessions those in attendance will be able to network in the Partner Pavilion and IoT Solution Showcase and see the latest solutions and innovations to incorporate into their product designs. PTC LiveWorx Europe 2015 offers attendees everything they need to shape the future of technology and business as we know it.

About Sigmetrix

Sigmetrix is a global provider of comprehensive, easy-to-use software solutions that help users achieve robust designs through tolerance analysis and the correct application of GD&T. With over 20 years of research and development, Sigmetrix products eliminate the error between as-designed assemblies and as-produced products. For more information, visit their website at www.sigmetrix.com.
