iPatientCare is Pleased to Welcome ARETE Enclosures, MDToolbox and HxtoRx On Board as Sponsors for its National User Conference (NUCON), November 6-7, 2015

iPatientCare is Proud to Host Healthcare Industry Leaders at National User Conference 2015 as Sponsors and Exhibitors for the Event.

Woodbridge, New Jersey, November 4, 2015 -- iPatientCare, Inc., a pioneer in mHealth, cloud-based ambulatory EHR, integrated Practice Management, and Patient Engagement solutions is glad to welcome ARETE Enclosures, MDToolbox and HxtoRx aboard at the National User Conference (NUCON) 2015 as sponsors and exhibitors.

NUCON, the yearly event at iPatientCare gives healthcare providers and their office staff a novel opportunity to stay mindful of the propelling social medicinal service twists. It's a phenomenal social occasion for individuals from medicinal services industry who use technology and information management on a regular basis. This event has consistently been rendering a stage to help medicinal services specialists connect with experts; allowing them to look at and get answers concerning industry happenings, upgrades, and best practices. Each one of these attempts are directed towards exhaustive accomplishment of our goal to deliver better outcomes, reduced costs, meaningfully through a mix of Education – Exhibition – Entertainment.

"Our comprehensive and information-packed sessions aim to cultivate learning of iPatientCare products and services amongst the attendees in a viable manner. A standard yet most energizing portion of NUCON 2015 will be the presentation showcasing leading innovations coordinated by iPatientCare administrators. Festivity is an inherent ingredient of iPatientCare's NUCON. Apart from knowledge dissemination about iPatientCare product suite, the event helps attendees to network and establish fruitful connections. The amazing finale of this event would incorporate an interesting diversion from the regular learning experience, featuring a lucky draw and various other prizes along with fun recreational activities. It's our pleasure to have ARETE Enclosures, MDToolbox, and HxtoRx as sponsors at iPatientCare's much-awaited annual conference.– Pranav Patel, General Manager, iPatientCare.

"Gator Games LLC dba ARETE Enclosures is proud to be in partnership with iPatientCare. We believe our Kiosk ARETE Enclosures along with the iPatientCare Patient Kiosk Solutions will deliver registration cost reduction, higher patient satisfaction, and faster patient payments to the iPatientCare practice partners.

ARETE Enclosures delivers Secure and Ruggedized iPad Enclosures to iPatientCare Customers for the iPatientCare Patient Registration and Payment Solutions. The ARETE iPad Enclosures are designed manufactured, materials sourced in the United States of America. The ARETE product focus is on

precision, quality, efficiency and customer service in order to deliver the best offerings in the tablet enclosures market." - Bill Bysinger; Executive Vice President, Gator Games LLC dba ARETE Enclosures.

"MDToolbox is proud to be a business partner with iPatientCare. MDToolbox offers state-of-the-art integration modules for health information technology, including e-Prescribing, EPCS (Electronic Prescribing of Controlled Substances) and Direct Messaging. The software modules focus on patient safety, security and transparent workflows for Providers. We are happy to be participating as a sponsor and exhibitor at the National User Conference (NUCON) 2015 and look forward to the direct user feedback from the conference." – Michael Conner, Director of Business Development, MDToolbox.

"We are really excited to be part of NUCON2015 this year. This is the first time we are participating as an exhibitor. It is a fantastic opportunity and a good platform to showcase our upcoming software. Being doctors ourselves, we understand the pain and efforts that are required by doctors for documenting HPI and ROS in the EHR. HxtoRx medical solution is an anatomical image based software. Through the patient portal, guided by the virtual physician assistant, patients create previsit data entry. This saves time for the physicians to create medical records and they will be able to generate reports for comprehensive level coding. HxtoRx software is interfacing with iPatientcare. This will be an optional feature available for all the doctors in the next few weeks. Please join us for a demonstration at the NUCON conference."- Uma Basavaraj, CEO, HxToRx.

About iPatientCare

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.
