

# 2014 Highlights

## *Delivering Life-Saving Supplies* **AROUND THE GLOBE**

In 2014, the Salesian Missions Office for International Programs coordinated the delivery and distribution of \$14.3 million worth of supplies provided by giving supply partners. Relief aid was sent to missionaries working in West Africa amidst the Ebola outbreak, including medical and dental supplies, personal protective equipment, soap and sanitary supplies, and fortified-rice meals.

Salesian Missions is a recipient of the USAID Ocean Freight Reimbursement Grant program, which enables the Office for International Programs to transport shipments of humanitarian aid and development commodities at low- to no-cost.

Meals provided by Stop Hunger Now were sent to Salesian schools and programs in Haiti, El Salvador, Guatemala, Nicaragua, Uganda, Zambia, South Sudan, Burundi, Liberia, Swaziland, Sierra Leone, Central African Republic and the Philippines. Medical supplies from Stop Hunger Now were sent to Honduras and Central African Republic.

Meals provided by Feed My Starving Children were sent to Haiti, Guatemala, Honduras, Sierra Leone and Swaziland.

Salesian Missions coordinated the delivery and distribution of sports equipment — provided by

One World Play Project — to vulnerable children in Paraguay and El Salvador.

Health supplies, clothing, school supplies and school furniture also safely reached people in need in countries including Mexico, the Dominican Republic, Haiti, El Salvador, Guatemala, Nicaragua, Paraguay, Cambodia, the Philippines, Ethiopia, Liberia, Malawi, Uganda and Zambia.

Four 20-foot containers of salmon donated by the State of Alaska were delivered to support Salesian relief efforts due to Typhoon Haiyan in the Philippines.

Additional giving supply partners include IRN: The Recycling Network, GRRO International, Mission Relief Services, World Vision and TOMS.

**“We chose to work with Salesian Missions because they were one of the first to demonstrate our shared vision of helping individuals and communities thrive and reach their highest potential through play.”**
