Continuous

- Existing Business: Process Innovation
- New: Business Model Innovation
- The Unknown: Disruptive MVPs

Comprehensive

- Committed
- Clear
- Culture-driven
- Complex
- Co-funded
- Consequential

We give you the best of both worlds. Our team of 20+ senior specialist consultants work through innovation value chains across the Atlantic as well as within the EU and the US.

We have vast expertise working for Fortune 100 corporations like Microsoft (since 2004) and Telefonica, also for corporate associations such as Digital Europe.

We digitize innovation ecosystems. Our evolving platforms host an exclusive pool of 4400+ pre-validated startups so that you can monetize the breakthrough innovation power of thousands of enthusiastic entrepreneurs. We personally and thoroughly screened 1200 of them.

We handpick your ideal collaborators so that you don't waste resources and we identify the entrepreneurs who offer solutions to your exact needs. We make sure that you only meet the most relevant shortlist and steer the collaboration process until its monetized conclusion.

We have boots on the ground and we can be your eyes, ears and extended arm. We are embedded in Silicon Valley, networked in Brussels, present in other European capitals. From a simple outpost to a fully-fledged innovation center, we can build your ecosystem.

We put public funds at your fingertips. Your investments will go a long way when assisted by public funds: with us, you tap into a combined \$480B of public grants available to reach your innovation goals. We are experts in 360° innovation project funding and management.

So what does an innomine 3C project look like?
