Bonded Logistics Opens New Facility in Salisbury, NC

290,000 sq. ft. facility will help support client growth and new business

CHARLOTTE, NC (December 3, 2015) – Bonded Logistics, a leading provider of third party logistics, announced today that it has leased an existing facility in Salisbury, NC, to support client growth as well as provide additional space for new business opportunities.

The 290,000 sq. ft. facility, located on Airport Road, will be equipped to handle current client plant and distribution center support. Bonded, with headquarters in Charlotte, NC, is already up and running with their first client in the building. They are now in the process of up-fitting a portion of the facility to meet another client’s needs and plan to have that complete by the first of next year.

“We are looking forward to a presence in Salisbury to help support the local manufacturing base with plant support,” stated Scott Carr, President of Bonded Logistics. “We see a lot of potential in and around Salisbury. It fits our current needs well, and we look forward to growing our business and providing jobs to the local economy.”

The new facility further broadens Bonded’s expansive footprint in the Charlotte metro area to 1.8 million sq. ft. across 11 buildings in Charlotte, Concord, and Salisbury areas.
