

HOW IT WORKS

Mail flow is passed from Office 365 to Exclaimer's regional Azure servers using connectors. Signatures for Office 365 sees the incoming messages, adds the appropriate signature to each email and passes them back to Office 365 for sending.

It's as simple as that! All emails are guaranteed to have the correct signature added and never leave the Microsoft Cloud environment.

QUESTIONS ?

Speak to us

Chat to our highly trained sales and support staff on all Exclaimer related queries. Contact us from any location worldwide via email, telephone or LiveChat.

Request a Demonstration

EXCLAIMER CLOUD SIGNATURES FOR OFFICE 365

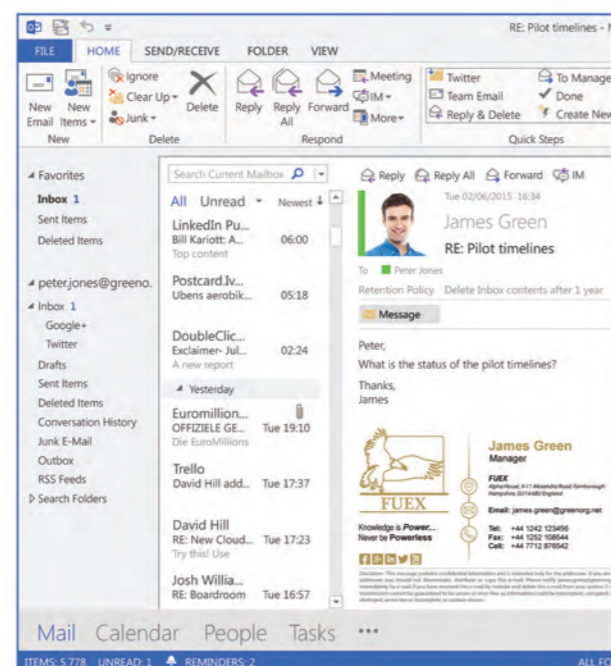

Design professional email signatures that are automatically added to every Office 365 email, all controlled in the Cloud.

Centrally manage email signatures for Office 365 via the Cloud.

Exclaimer Cloud - Signatures for Office 365 marks the new standard for designing professional email signatures for Office 365.

All Office 365 users get a full, dynamic and professional email signature when sending from every device, including mobiles and Macs.

- Equipped with a powerful web interface, which requires no specialist IT skills to use.
- Select a design from the template library OR let us create a custom signature if you can't find the right one for you.
- All user contact details are taken from your Office 365 Directory.
- Use different signature templates for individual users or various groups/departments.

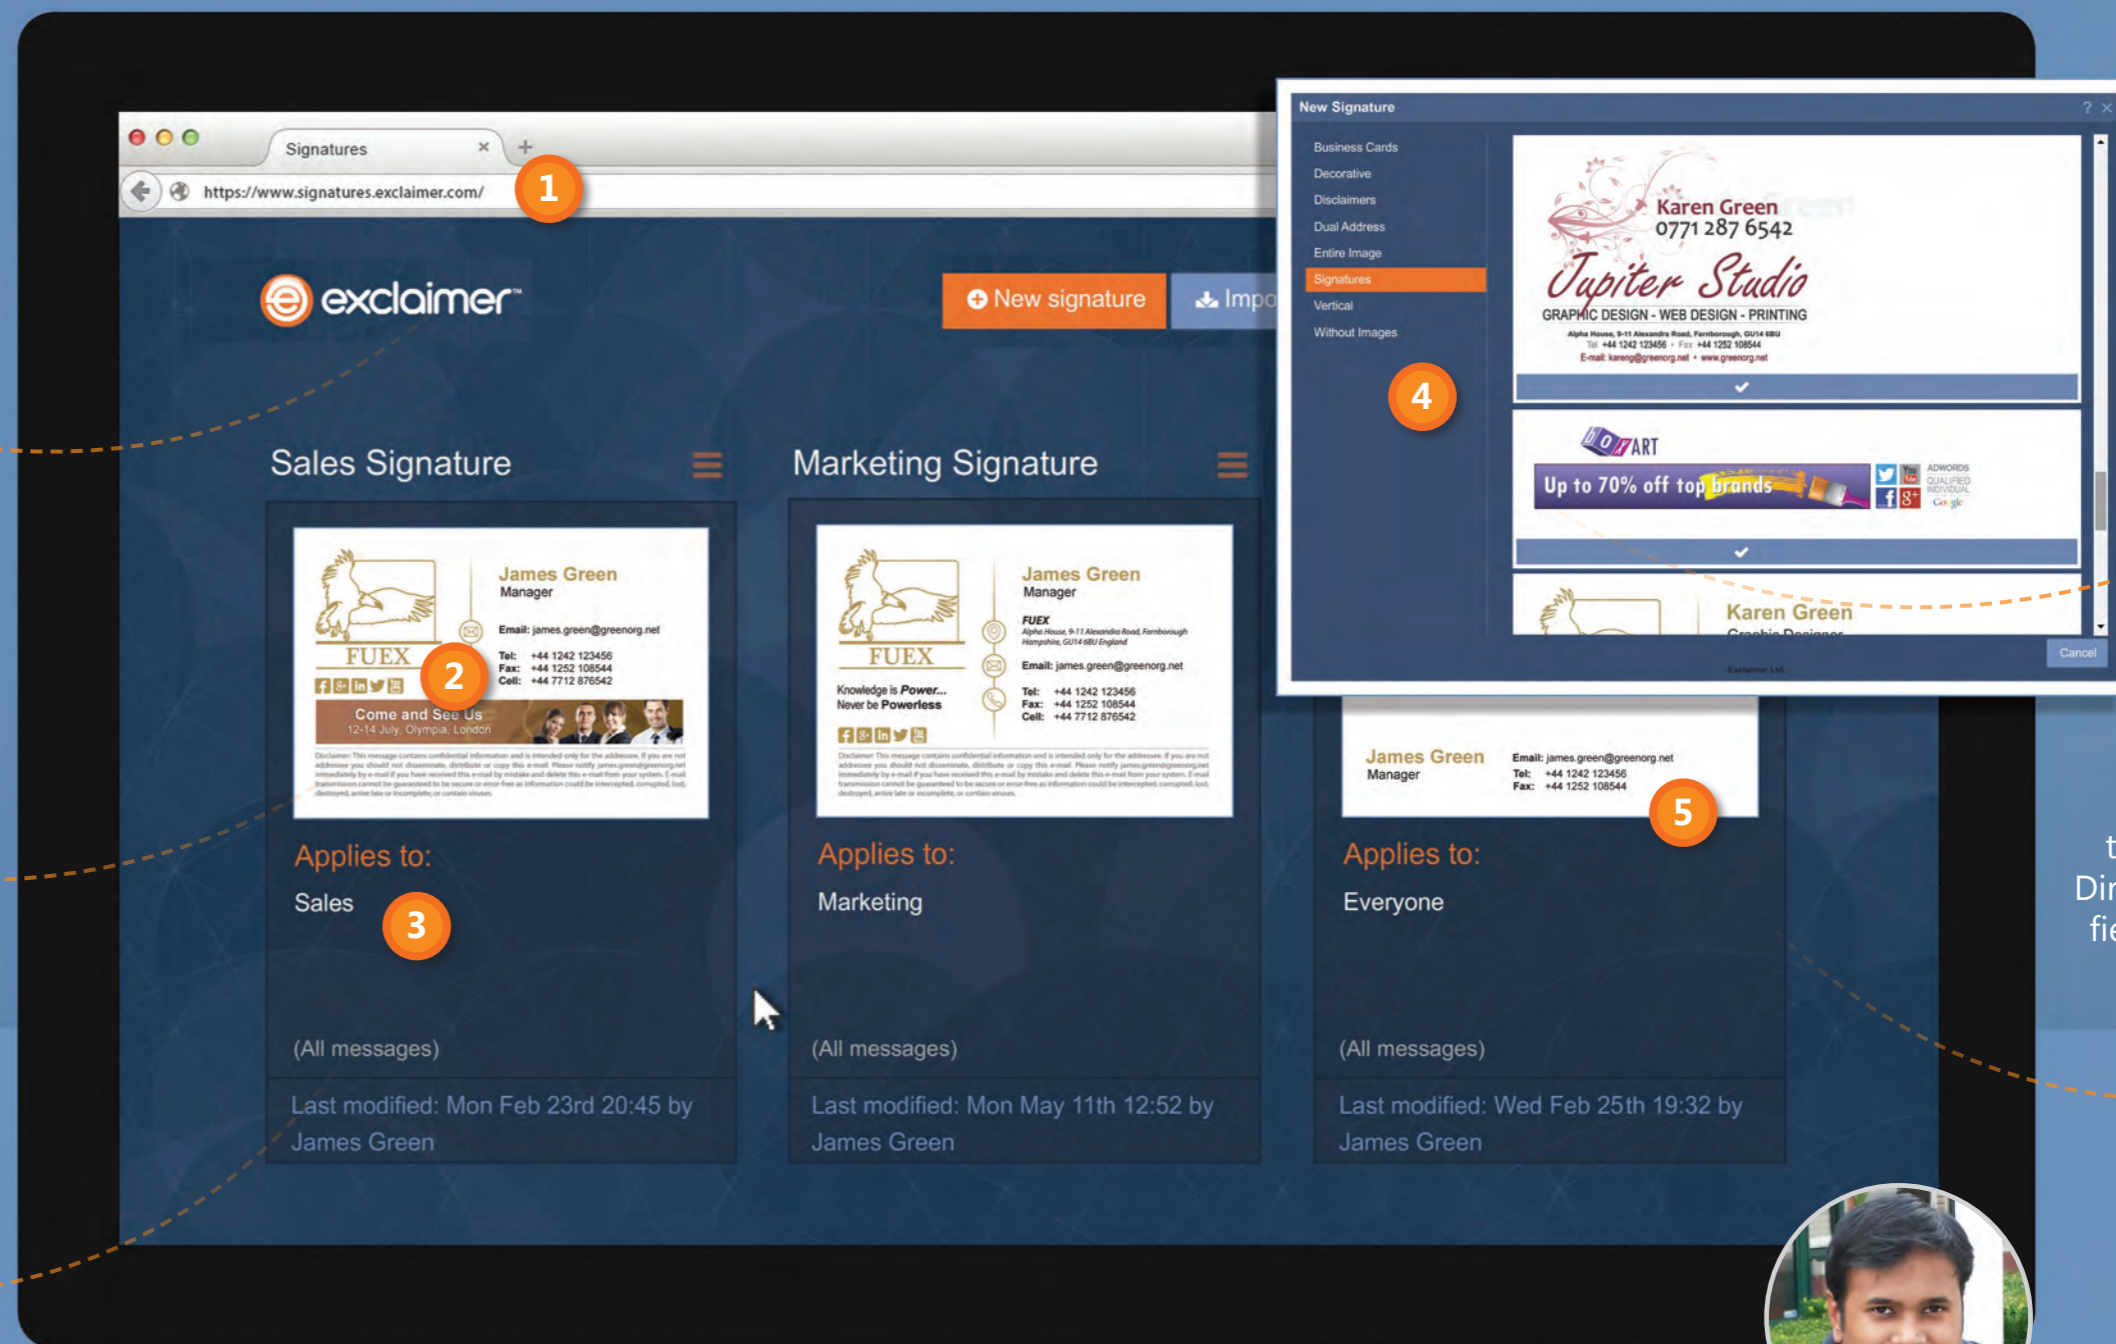

- Update any signature element and apply the changes instantly.
- No unauthorized user can modify or redesign their signature.
- Easily add promotional banners, social media and more.
- Per user per month subscription pricing.

Built for users of all abilities, easily create and manage all signatures via an intuitive UI, accessible from any web browser.

Signatures can include dynamic marketing content such as social media icons, promotional banners, award logos and more.

Different signatures can be designed for different departments. A marketing team can showcase an event, while customer services get a signature with the company's opening times.

THE FUTURE OF EMAIL SIGNATURE MANAGEMENT

Choose from a library of professional email signature templates.

All contact details are taken from your Office 365 Directory to merge signature field data such as name, job title, phone number etc.

Exclaimer Cloud - Signatures for Office 365 is a fantastic cloud service for Office 365 users to manage their professional signatures.
